

Auto-hemotherapy

An Akita Inu dog cured from a skin disease

Akita Inu had a skin disease typical to these dogs, as they are from a cold region (Himalaya).
These images prove to anyone who wants to see with their own eyes the effects of AHT.

15 injections - AHT with autologous blood
10ml - every 15 days

Telma Geovanini
Nursing Master Degree
Auto-hemotherapy Researcher

TOTALLY CURED

This dog's mother has died without a single hair, with many wounds all over its body, and in indescribable suffering.
